Using Allocations to Meet Need in Your Study Area

Identifying Projects in Higher Need Areas

- A detailed map of park need was developed for each Study Area, evaluated as part of the Park Needs Assessment. This map should be consulted when identifying projects to be completed with annual allocation funds.

- Effort should be made to select projects in the relatively higher need areas within Study Areas. RPOSD will continue to map park need in each Study Area over time, providing an opportunity to monitor and evaluate how Measure A funds are helping to meet the identified need throughout the county.

Example Study Areas
