

## 3.2 ELIGIBILITY AND REGISTRATION REQUIREMENTS

Eligible grant applicants are required to complete an online registration process. Applicant registration information must be entered and submitted to the Grant Management System (GMS) through the link to the GMS portal found on RPOSD's website.

Applicants requiring assistance with the registration process are encouraged to contact RPOSD for assistance. As part of the registration process, registrants will have the opportunity to inform RPOSD of interest in the Technical Assistance Program.

All applicants must verify their registration information annually. This may include reviewing documents and forms previously supplied, or uploading new versions of documents and forms as required by the GMS. Registration requirements differ by organization type (public agency, nonprofit organization, or school) and are described beginning in Section 3.2.1.

Once enrolled, public agencies, nonprofit organizations, and schools may apply for open grants as determined by their agency or organization type. Figure 3-1 indicates which grant programs are open to which types of agencies and organizations.

**Table 3-1: Measure A Grant Programs By Agency/Organization Type**
